

HOURGLASS - Meal Plan

The meal plan is built to keep fat loss moving without making the client feel lost. Protein first, carbs placed around training, enough fats to stay consistent, and water every day.

Real-Life Notes

- Do not skip all day and expect night cravings to behave. Eat earlier.
- If drinking socially, eat protein first and avoid sugary mixers.
- If a meal is missed, do not punish yourself. Get back on the next meal.
- Check in honestly. A coach can fix a real log, not a perfect fake one.
